Comrades and friends:

On behalf of the Acting Central Committee of the Leninist core to Found the U.S. Bolshevik Party, we welcome you here tonight to commemorate the passing away of our great leader and great teacher Chairman Mao Tsetung, and we commemorate the first year of his death, as he taught us while living, struggling in the interest of the international proletariat. Chairman Mao Tsetung was a great Marxist-Leninist making many contributions to the treasure house of Marxism, he taught the international proletariat about the bright future that lies ahead, and how to reach our objective, standing shoulder to shoulder with Marx, Engels, Lenin, Stalin and our beloved Comrade Enver Hoxha, he blazed the trail of struggle that trail which leads to the total emancipation of the working class and oppressed masses, Proletarian Revolution. We commemorate his death with this cultural activity, in the spirit that he taught us, bringing forward to you tonight, this activity on revolutionary culture and art, counterposing all the bourgeois decadence of this capitalist decayed moribund society, representative of all that is old, and dying out based on exploitation and oppression, based on our suffering and deprivation. On the other hand we have the revolutionary culture and art of the masses of people, representing valor and spirit, strength, self-respect and respect of others, self-sacrifice and endurance, honesty and determination, character and humbleness that describe our suffering and our struggle to end class exploitation and oppression. Throughout the world the masses are rising in ever more determination, with the confidence that truth and standing on truth provides, there is no corner of this earth that is untouched by the blazed trail of struggle the fire of revolution, the day to day struggles of striking miners, and railroad workers, and steel workers, and auto workers and packing workers and food processing workers, in the fields in the mines in the factories, warehouses, in

the docks, all over this earth the international working class is settling accounts with the oppressors and leading all the masses out of this world-wide imperialist system which leaves its vicious imprints in the death of starving children, of trapped miners, of maimed workers, of millions killed through wars of aggression, the millions of unemployed and deprived masses, the brutalization of women, youth, and the elderly, the cruel and oppressive system which colonizes nations, which subjugates countries, which enslaves whole continents, which exploits the natural resources of the world's people, who through force and violence set up puppet governments and sign treaties such as the Panama Canal Treaty of treason, which legalizes colonial oppression and military aggression. It is these conditions and more which instill in us a will power to struggle, a determination to free ourselves from exploitation and oppression, we must throw the yoke of imperialism and social imperialism off our backs, and join hands tight with our international class brothers and sisters, in one voice we rejoice workers and oppressed people of the world unite, and defeat imperialism, social imperialism, all reaction and their running dogs.

This is the struggle which our revolutionary culture literature and art must reflect. We live in the era of Imperialism the era of the eve of socialist revolution the era of Leninism. Our literature and art must educate the masses, not only as to our present conditions, but as to our future it must clearly and with determination exhibit the stance of the working class and the toiling masses, it must serve the interest of the working class and no other interest. Our poetry, our art, our music, our stories, our dance, our education, must be from the stand of education in the spirit of revolution. No one can deny a fundamental change is in order, and although many try to distort what this means the fact of the matter is that the wheels of history cannot be reversed, or halted, socialism will without a doubt replace capi-

talism, the proletariat without a doubt will defeat the bourgeoisie, classes will be eliminated and thus class exploitation will be laid to rest. The road is a hard and torturous one as Comrade Mao Tsetung and all the teachers have taught us and as life confirms the authenticity of their teachings, the future is a bright one, one which we have dedicated our lives and will give our lives to reach our objective, our final aim. We have not learned about the suffering of the masses as observers, or in books, we live the suffering of the masses, we know the pain in our hearts every time a young man or young woman is killed in cold blood by one of our N.Y.C. "finest" murderers the police. We know and our hearts ache when we learn of trapped miners in South Africa, our hearts ache when we learn of the massacres of peasants in Latin America, our hearts ache with the cries of babies going hungry, our hearts ache when workers lose an arm, a leg, or die burnt up in an acid tank, our blood boils before the rotten medical system, lack of child care facilities, recreation facilities, lack of lunchrooms which forces us to eat on dusted work tables, at the harassment by foremans and all other lackies of the bourgeoisie, harassment which is intended to make us slave for the capitalists, getting from us the maximum profits, giving us nothing in return. Our salaries are fixed to get us to work the next day, pay rent, barely enough to buy food at exorbitant prices and cheap quality, and providing very little nourishment, in fact food that rots over night, the price of clothing for a family of four runs the hundreds of dollars a season, meanwhile the capitalists who are the bloodsucking minority, own everything, the factories, the mines, the fields, they rob the raw materials, indeed they own the means of production, do no work, yet rip off the benefits of our labor. They dine and wine, they travel throughout the world in their private yachts and airplanes, their private beaches and estates, owning acres of land, while the masses live in crowded tenements, or run-down houses which they spend their entire lives paying

for, way over the actual costs. Meanwhile the bourgeoisie and their lackey politicians tell us to be nonviolent, accept life the way it is, believe in god and thou shall be saved, play a number you might hit it in the next ten years, try your luck at bingo, or the lottery, play horses, if not try pumping your veins with drugs, heroine, pills, cocaine, or smoke marijuana, drink methadone, want some recreation? try your local X rated flick, children' prostitution, homosexuality, be a superfly pimp, hustle and get over on who? On the masses of the people. This, gambling, religion, drugs, alcohol, pornography all are representative of bourgeois decadent culture. Throughout it gets propagated "you, you are the one at MacDonalds", "me and my RC, what's good enough for other folks ain't good enough for me", in a thousand and one ways the individual, the system of private property which is a system based on the exploitation of man by man, gets propagated throughout. The youth are kept unemployed, Neighborhood Youth Corps., is nakedly exposed for the farce that it is. A percentage of the youth are forced into petty crimes, selling marijuana, and other drugs, hustling and ripping of the masses, they are taught not about the righteous struggles historically of the masses, but instead are pumped with Barreta, Charlie's Angels, SWAT, Kojak, Columbo, and the many other police "shows", either be a petty criminal or a law enforcer, be part of the state, whichever way they come at it one common thing runs throughout the message is stand opposed to the masses be out for number 1, and step on everybody your mother if need be, oppose the revolution, divide, split, wreck, and foster the bourgeois system the capitalist system of exploitation and oppression. But the youth stand tall and erect they are indeed a strong and vital force, the youth is rebellious to what is moribund and old while open minded to the new, what's on the rise, to the class that is growing day by day, to the proletariat. These young men and women possess such character because in opposition to what the capitalists teach, the working class teaches them also -

teaches them honesty, work hard and be a man, a woman, take nothing that is not yours, share if you have a big apple and a small one give your friend the big one and keep the small one for yourself, if you have one cut it and keep the smaller piece for yourself. Tell the truth and take responsibility for your actions, respect your elders, be organized and clean, whatever little clothing you have keep it clean and have respect for others, present yourself with self-respect and determination and if anyone steps on you fight back, stand on the truth and fear nothing. These are not "ten commandments" they are principles, principles which will guide a whole society, these are the principles of the working class which the bourgeoisie and their lackies go against day in and day out which are attacked trampled upon and made a mockery of. These principles of struggle taken in their simplest form as we have tried to document here, have been taken and raised to a science of revolution, Marxism-Leninism which is the summed experience of the working class taken in its general aspects. Let's see what our teachers teach us in relation to the work in the field of revolutionary culture literature and art. We quote our great teacher and leader Chairman Mao Tsetung:

"Although man's social life is the only source of literature and art and is incomparably livelier and richer in content, the people are not satisfied with life alone and demand literature and art as well. Why? Because, while both are beautiful, life as reflected in works of literature and art can and ought to be on a higher plane, more intense, more concentrated, more typical, nearer the ideal, and therefore more universal than actual everyday life. Revolutionary literature and art should create a variety of characters out of real life and help the masses to propel history forward. For example, there is

suffering from hunger, cold and oppression, and also there is exploitation and oppression of man by man. These facts exist everywhere and people look upon them as commonplace. Writers and artists concentrate such everyday phenomena, typify the contradictions and struggles within them and produce works which awaken the masses, fire them with enthusiasm and impel them to unite and struggle to transform their environment. Without such literature and art, this task could not be fulfilled, or at least not so effectively and speedily."
(Talks At The Yen-an Forum On Literature And Art, Mao Tsetung, pg. 19-20)

Indeed let's look at our work till this point with a critical eye. Does our work represent the interests of the masses, does it awaken in them a spirit of struggle and enthusiasm? Does it impel them to unite and struggle to transform their environment, are we producing such work, and what must we do to take it to a higher level.

On the eve of the founding of our Party, the political party of the working class the U.S. Bolshevik Party, we are truly humbled before your presence. In you comrades and friends we find strength and confidence which has aided us in times of difficulty and extends a hand of solidarity which no reaction can come against. We have fought the opportunists in our ranks which would sneak in decadent bourgeois culture raising up such trash as Latin New York, as the magazine of the "Future" how far from the truth. They did everything in their power to sabotage our work and particularly sabotage the work of ideological remoulding such a crucial aspect of our work in the field of revolutionary culture, literature and art. Today these very elements like Pablo Yoruba Guzman, the mild-mannered

revisionist reporter writes trash for the Village Voice runs a muck on T.V. and radio programs, he's exposed for the world to see. Yet some defend this arch enemy of the people. Like Pablo Guzman there are many, who have tried in so many ways to place a spoke in the wheels of our Party. Like the revisionist, we have also the anarchists, propagating such trash as the individual should decide, the individual should be praised and raised to the sky, have trust in the individual's grasp of Marxism-Leninism, this affront on our science of revolution, on our collective life, on our Party, on our struggle cannot go unchallenged has not gone unchallenged and will be further exposed. Our Faith lies in the Party and the masses there will be no compromise. All these alien ideological trends make themselves felt, in a million and one ways. Our work of revolutionary culture and art must in a tit for tat struggle stand in direct opposition to all forms of bourgeois ideology as reflected in all forms of opportunism. While Muhammad Ali, propagates I'm the greatest, the opportunist propagate give me individual recognition, same thing, while the bourgeoisie propagates a Miss Black America Pageant, the opportunists call out for an Equal Rights Amendment, if we have a white Miss America let's have a black Miss America, the bourgeoisie's standard of women is intended to put women on a market, to sell cosmetics, dresses, bathing suits, flaunt themselves, going against all principles of proletarian morality. In opposition we have the paintings of struggling women involved in revolution holding AK 47's and working in steel plants and fields of this world. Clothing is to shelter us from the cold and the heat and not to flaunt our bodies to foster bourgeois decadence and immorality, to make money for a greedy minority, corruptive and decadent capitalist class. We raise our children in this spirit not to believe of themselves better than anyone or to stoop to low-life behavior and bourgeois standards. We raise our children to understand the evils of prostitution and drug addiction, of slavishness and laziness. These are

the principles that our class the vanguard class of the revolution, lives, teaches, stands on and will die for till the birth of a better world. These are the principles which find their fullest expression in socialist society. The working class organized as the ruling class will teach all the masses in this spirit and lead the struggle to abolish classes - communism will be triumphant. This is what the bourgeoisie is terrified of, it trembles before the communist revolution. Through its state apparatus, the organ of class rule and exploitation the armies, the police, the agents of the C.I.A., F.B.I. and the rest, the courts, it brutally tries to halt this inevitable historical fact, that communism will be triumphant. In a million and one ways they make their influence felt and propagate anti-communism, they insist that they have to police the world for democracy and freedom..that their laws are intended to safeguard humanity..but the facts point to the truth. What justice is there when a rich woman like Patricia Hearst a daughter of the bourgeoisie gets off scott free, while the jails of this country are filled with working men many of whom have committed no crime, who have had to steal bread to feed their families, humiliated by the system of Welfare. Humiliated by unemployment, many of whom have only protected themselves from the maniac policemen trigger happy beasts. What justice is there when a representative of this decadent society Erlichmen of the Watergate scandal goes to complete a "jail" sentence in a country club of joy and pleasure, swimming pools, golf and a private clean room with changed linen everyday, the best meals, can go home on passes, and is guaranteed a come back to his mansion and a life pension. In contrast the working men and women and oppressed nationalities are jailed in crowded cells have to survive on food that should not be fed to dogs, live a life of terror and abuse at the hands of some sick hacks homosexuals sedistic maniacs, and are forced to produce hard labor and at no wages for the very state that has condemned them to a life of misery and deprivation unmatched, in any other society.

Attica is very fresh in our minds, the killing of George Jackson is deeply imbedded in our hearts, the strangling of young men and women in the jails an every day occurrence, the death penalty a dark cloud over our heads. And in our every day struggle fighting for our rights workers striking as a weapon to resist our exploitation they hand us an injunction, and backing it up with their police who come to the plant to protect private property, what justice is there when we rebel against our conditions and our national oppression and they shoot down our youth like they did recently in the Chicago Puerto Rican Day parade? What justice, what democracy is there when they loot and rape other countries, set up their military regimes and shoot people down if they are in a crowd of five like they do in Santo Domingo. What democracy when they spend billions of dollars on military expenditures, to "police the world", and the masses of people are dying from the brutal exploitation and oppression. There is no justice, there is no democracy; the laws are designed to protect the capitalist class, they are designed to keep us in servitude in humiliation, in deprivation and want. Their political parties the Democrats and Republicans are parties of one class and one class alone, they serve the bourgeoisie, and do not and cannot represent the interest of the working class and the toiling masses...the working class as the vanguard of the revolution as the class that stands in fundamental opposition to this barbarous system will lead the masses and through the forced overthrow of the bourgeoisie will smash the bourgeois state and on its ruins set up the dictatorship of the proletariat. It must be this way, it will be this way, it has been this way in other countries, the Peoples Republic of China, the Peoples Socialist Republic of Albania, the lessons of the first socialist revolution the October Revolution in Russia under the leadership of the mighty, our beloved Comrades Lenin and Comrade Stalin...The lessons of these revolutions stand out as a mighty chapter in the struggle of the proletariat for total emancipation. One lesson of many that speaks

to our present situation and our task, that is that the proletariat has had to build its advanced detachment its political party, its vanguard organization founded and guided by the principles of Marxism-Leninism Mao Tsetung Thought. The party of the proletariat makes the masses conscious of its historic mission. The Party is composed of the best elements of the working class, the sons and daughters those men and women who dedicate their entire lives to serve the proletariat and the masses who ask for no personal recognition, who manifest self-sacrifice, valor, the spirit of struggle and unity which comes as a result, who stand on our lofty principles and will not compromise on them who educate the masses in this spirit and serve as a true vanguard at the forefront to the struggle, the first to give our lives for what we truly believe for what we are convinced is the solution to the miserable conditions which we are forced to live under. We do not conceal we are communist we are one with the masses and upfront propagate the principles of Marxism-Leninism, as we unite all that is honest and genuine in our country while winning the masses to the side of the vanguard. We stand and staunchly defend the principles of Democratic Centralism and criticism and self-criticism as weapons to weld our internal life and resolve inner Party contradictions. Ideological struggle is the lifeblood of our Party. And in our struggle to develop our work in the field of literature and art it must reflect the stand of the proletariat, it must serve the masses and educate the masses in the spirit of proletarian revolution, in the science of revolution in Marxism-Leninism, and in order that we may accomplish this task, we need our Party like we need the air we breathe...This has been the central task. The carrying out of this central task has illuminated the way forward. We have fought and continue to fight the enemies of our Party the enemies of the proletariat. We stand on principle the Party becomes strong by repulsing bourgeois ideology and purging its ranks of the diehard representatives the

opportunists of all hue..All the revolutionary culture and art that we will be sharing with you tonight is a reflection of that struggle. We ask comrades and friends to join in with us, this is our we mean all our revolutionary culture and art. The masses have propelled us in the spirit of revolution, and it's to the masses throughout the world that we are in gratitude for we learn about life the way it is not the way we might think it is not the way the bourgeoisie depicts it to be. Our work belongs to the international proletariat and it is to our class that we dedicate the portrait of Lenin that we are about to unveil which concretely has been donated to the U.S. Bolshevik Party, being born in struggle. Our songs, our poetry represent our determination to fight to the very end, for the mighty cause of communism...

Comrades and friends we ask you to give your criticisms your suggestions, supervise our work and put it to the test of criticism for improvement, make contributions and subscribe to our political organ, Bolshevik. We thank you for coming here tonight to commemorate Chairman Mao and to join us in the spirit of proletarian internationalism.

DEDICATED TO THE COMING INTO BEING OF THE U.S. BOLSHEVIK PARTY

Revolutionary Poetry
A form of struggle
which we dedicate
To the masses of people
Exploited and oppressed

A small contribution
which we have drawn
together
We serve the working class
and no other

To build our Bolshevik Party
For this we give our
lives
We know it will lead
us to victory
Through the twist and turns
it will guide

No matter how difficult
our hard and torturous
road seems
The Party will Stand at Attention
in the traditions of the
3rd Communist International
this is no utopian dream

On principle we will
never compromise
Our Party will grow
strong and ever wise

Against opportunism
it will fight
tit for tat

purging its ranks of opportunists
you can be sure
of that

the Class Conscious
Proletarians
it brings into its ranks
it trains them
to never waver
to be staunch
and steadfast

Bolshevik Party Cadre

"Communist Party" M-L - Workers Viewpoint and
the rest
failed the test
their rag sheets they
promote - light as feather they float
flooding the masses

with treachery - and competition
contemptuous they
Stand against
the revolution

They are doomed like
the bourgeoisie
with all certainty
the gates of justice
they will have to
come to - this is reason
To answer to the masses
for all their treason

The Party - will expose
them every day - every minute
the masses' consciousness
it will continue to raise
the direction of the main blow
to all revisionists
To smash the State
and seize State
Power
this is on the order of the
day
Our strategic objective
there is no other

Proletarian Revolution
Proletarian Dictatorship
For this we live and
die
With the Clarity of
A bright blue sky

With the deepness of an ocean
Our hearts are filled
We love the masses
and are propelled
by their determination
sacrifice, valor and iron will

The poetry in these
pages that follow
are a product of our
struggle
We bring them to you
brothers and sisters
You who encourage us
give us strength and
teach us all
to march on forward,
towards our aims and goals -

Our cause is mighty
No one can doubt
the masses are the makers of history
as sure as the rain
comes from the clouds-

fighting till the End
we are sure to win
leading us the U.S. Bolshevik Party
the Party of Lenin
and Stalin
This we believe and Practice day and night
We are building the Party
The Party of a new Type

Long live the U.S. Bolshevik Party!

Long live Proletarian Internationalism!

Long live the U.S. Proletarian Revolution!

THE MASSES MAKE HISTORY!

A thought
Our tasks, at times,
seem insurmountable,
our goals unobtainable.
But know this comrades,
the way is very clear,
the path ahead is with
the people, the people
will decide. The path
behind was blazed
with the blood of
the struggling masses,
and for that, I love
them.

CLARITY IN DARKNESS

BY THE A.C.C. DEDICATED TO
THE PROLETARIAN REVOLUTION

They Rob and loot throughout
the world
they maim and kill
at random and will
Maximum profits that's what
they are after
Everyone knows in darkness
and light
it's the bourgeoisie who we must
fight
We prepare day in and
day out
We learn from the Masses
World wide - Revolution
that's what it's all about
Our suffering has no
point of measurement
Unemployment,
harassment and
hunger - humiliation -
Oh!
What deprivation!
A dark City New York
seems always,
crowded neighborhoods, dirty ~~subways~~
Rat infested buildings
Welfare checks that hardly
pay for Chitlins
Our Children suffer what
miserable Conditions,
its all due to
Capitalism -
We know for a fact
developing is that
Revolutionary situation
we cannot bear it

this burden on our backs
imperialism what a rotten
system
The lights go out
Yet we see clearly
The future is ours
We fight for dignity
Animals they say that's
what they smear
that's because
with all they've done and do
they tremble
they fear
Their doom is Certain
it's very near
Not all their Policemen
armies and tanks
can stop our struggle
We fight with all our might
They have seen
nothing
A blackout is nil
A fight for state power
that's the masses
Will
they don't care for the
life of humans
they take thousands of lives every day
Then they have the nerve
to say
That the masses are
to pay --
frustrated, tired, humiliated-
and hot
for private property
that's not our lot
while we suffer
they enjoy their
resorts
Our children in the pumps
While they cruise
in their luxurious boats

their private beaches
With big signs
Private Property
Keep Out
Classes and Class Struggle
that's what
this society is about
13,000 police mobilized in one night
4,000 people arrested, they want
to instill us with fright
throw us in their
dirty Tombs
feed us nothing
but rotten salami
on a small scale
What they do throughout
the world
with their Imperialist Army
This they do in broad day
light
We know what they do
in the dark
A young woman
is killed
looking out of her
window
the bourgeoisie knows
no limit
they are the cause
of our sorrow
We turn our grief
into strength, our struggle
is not for sale
let go of our sisters and brothers
Open up those Jails!
We are determined
the masses are strong
We stand for truth
We oppose all wrong
in this spirit we are ever more
uniting
These Rich idle Men

Corporations and banks
Their system collapsing
Powder Puffs
Anarchy in production
this they cannot solve
Imperialism is doomed
they try to treat it with a kiddie glove
they have no salvation
they have round their necks a tight noose
we have nothing
therefore nothing
to lose
Clarity in darkness
We've gained that much
more
Our cause
as solid as
iron ore -
till the end
We are fighting
long live the day
of clarity in darkness
We have seen once
again
We can state with all frankness
We will not be cowed
by all the bourgeoisie's
madness
and while in
anger
We rise in all ways
the Ruling Class
Rots away
They are decadent
Moribund and old
How true it is what
Comrade Lenin told -
Only one conclusion
spells out the solution
"Imperialism is the
eve of Socialist Revolution"
Clarity in darkness

AWAKENING OF THE MANY

BY THE A.C.C. DEDICATED TO
THE WORKERS AND OPPRESSED
PEOPLES OF THE WORLD

To live in struggle
to die for one's beliefs
to love the masses
and revolution
know that we will achieve
to despise our enemy
the bourgeoisie
to work and fight
with all one's might
to build the Party
who will lead
to know above all
that the masses are
the makers of history
This is our struggle
for this we have indeed
committed our lives
we live as proud
students of international
communism
and from this there will
be no retreat
to live like
our teachers
this we are committed
to learn at best
how to shoulder
this responsibility
to cleanse our ranks
of all opportunists

to open the doors of
the Party to the advanced workers
to never forget what
is our aim
we know our struggle is no
game
and no matter what
of this we are sure
the masses of people
will not be lured
into believing
they must accept
the situation they now
face,
in fact of this the bourgeoisie
is certain
in the working class it has
an avowed enemy
for this reason
armies and prisons
they have built,
but the will of the
masses can not be contained
behind bars, it is a will of steel
the will power of millions
they fear to death
the awakening of
the many who live
in misery
who will not wait,
to rise up against them
and crush their resistance
we have taken our stance.....

EYE IN THE SUN

(A MAY DAY POEM)

This poem is written with proletarian optimism for the coming into being of the U.S. Bolshevik Party. The poem is written in commemoration of May Day an international proletarian holiday. Onward, comrades, Onward push forward to the First Party Congress!

A comrade

LONG LIVE THE 1st OF MAY!
LONG LIVE THE 1st OF MAY!
AN INTERNATIONAL PROLETARIAN HOLIDAY,
A DAY THAT BRINGS TO THE FORE
A RICH HISTORY OF THE PROLETARIAT,
A DAY OF CELEBRATION.
A DAY THAT BRINGS THE
IMPERIALISTS, AND THEIR LACKYS,
CLOSER TO THEIR JUST PAY:
DEATH TO THEIR BLOODSUCKING
SYSTEM.
NO WHERE IN THE WORLD
WILL THEY BE ABLE TO SHUT OUT
A THOUSAND MILLION VOICES
SHOUTING FOR FREEDOM.
NO WHERE IN THE WORLD
WILL THEY BE ABLE TO HIDE
FROM A THOUSAND MILLION
FISTS GRIPPING TIGHTLY
THE GUNS OF RESISTANCE.
A THOUSAND MILLION VOICES,
A THOUSAND MILLION FISTS,
SHAKING AND CRUMBLING
THE FOUNDATIONS OF IMPERIALISM,
SENDING THEM AND THEIR LACKYS

INTO THE DUST.

BUT THEY WILL FIGHT,
THEY WILL KICK AND SCRATCH,
MOAN AND GROAN.
BLOOD WILL FLOW
BUT WHILE THEIRS ROTS AND FESTERS
TURNS TO DUST
AND BLOWS AWAY,
OURS WILL CLEANSE AND PAVE
THE WAY, FOR A FUTURE
SO BRIGHT,
IT WILL DAZZLE AND TWINKLE AS
AN EYE IN THE SUN.
AN EVER WATCHFUL EYE,
THE EYE OF THE PARTY,
A LOVING EYE TO THE MASSES,
A VIGILANT EYE AGAINST REVISIONISM.
AN EVER BRILLIANT SUN,
THE BRILLIANCE OF PROLETARIAN OPTIMISM
THE BRILLIANCE OF OUR PARTY PROGRAM
THE BRILLIANCE OF THE FACES, OF THE
MASSES, IN THE SUN,
FILLED WITH THE KNOWLEDGE OF
A NEW WAY,
A NEW DAY,
A NEW LIFE.
LONG LIVE THE 1st OF MAY!

A WORLD TO GAIN

(Written by the Acting Central Committee of
the Leninist Core to Found the U.S. Bolshevik
Party, dedicated to the teachers of the
international proletariat)

It is again the first
of May - throughout the world
We rejoicé
and say
Long Live the mighty
First of May

The Bourgeoisie trembling
before our cheers
Tis the final conflict
which is very near

No doubt at all
We're very clear
A better world's in birth....

We work
We fight
With all our
might
Our Future is
indeed so bright
The road is hard
We understand
No chains shall bind us
We shall leave them behind us
nothing to lose
a world to gain

True to our cause
we shall remain -

And in this spirit
with all our might
Our party we build to
lead our fight
Through the twist and turns
it guides us all
the bourgeoisie will surely fall!
Nothing to lose
a world to gain-

THEY STAND ERECT AND TALL

**DEDICATED TO THE YOUTH INTERNATIONALLY.
LONG LIVE THE SUCCESSORS OF THE REVOLUTION**

Erect they stand
Their heads up high
Inspiring us All
It is in their hands
that the future lies....
Young and spirited
Full of life, seeking to understand
What is the situation at hand
struggling, grasping
With such open minds
A will of iron they manifest
taught by life itself
they learn - to remove
obstacles

placed by Capitalism
before them
the Young
are determined
Rebellious and bold
and will rise against
What is decadent and old
In the fight for our Party
they will rise that much
more
loyal to the working class
and oppressed masses
Of this we are sure -
Though lacking experience
They are full of
vigor and life
A lesson they teach us
is to be honest and
outright....
Not biting their tongues
they are acutely aware
of who's bragging
while hiding who's down
and who ain't
flaky elements they detect
from a mile away
But for who is
true
They get down all the way
The young
so full of life
Faces gleaming
like shining stars
lighting up what seems hazy and
dark
while rising like the sun

at the break of dawn
like the happiness which fills the air with
the cries of a baby that
has just been born....
Their minds are so fresh
like a stream from a
mountain
Their strength and determination
the Party will guide towards
Proletarian Revolution
It's no lightweight responsibility
Which you have shown
You can shoulder
To the international
Proletariat
You will always remain
faithful sisters and brothers....
and in this spirit
the Young Bolshevik League
will be born
Under the leadership of
the Party it will grow
Very strong
We rejoice
voices laughing and gay
being born out of struggle
young Communists day by day
An ever blazing torch
which makes the bourgeoisie
tremble
before the masses of youth,
their old decadent state is
nakedly clear....
Boiling blood,
the Youth fight
exploitation and

hunger
like a lightning and thunder
like a tidal wave
which recognizes no borders
The Young are not
fooled
And this is the truth
rejecting what's old
while embracing what's
new
The militant fighters
of the new socialist order
We find in the Youth -
The Young hero George
Jackson
A painful lesson which
We turn into strength
Strong, young a Revolutionary
Till the Very End -
He lived a brave life
Never bending his convictions
Standing Erect and Tall
A fighter for liberation -
We shall always remember
our Fallen heroes
by pledging our own lives
for the masses' freedom
The bourgeoisie will pay
for the murder of George
Jackson and all others -
of this we are clear
their doom is very near
We salute you
Young women and Men
And of this we are
certain

A new day is on the
horizon
A better world
with dignity
that's what we fight for
Standing Tall and Erect
happy, witty and strong
life itself confirms
what history has told
The brave
the fresh blood
rejuvenating till Victory
Cleansing the hard and
torturous road
They stand Erect and Tall
the sons and daughters
of the Working Class
worth much more than All the gold
The chosen successors
with each day
that passes
what a bright future
lies ahead for
All the Young
masses
They Stand Erect and Tall!

THE YOUTH ARE A STRONG AND VITAL FORCE

The youth are a strong - a strong and vital force
The youth are the successors of the Revolution
This is the Proletariat's gain
And the bourgeoisie's loss

The Revolution awakens in them
Their spirit to be free
The Revolution tempers them
Tempers them to be

Young heroes, Party cadre
Young masses tempered like good steel
Young soldiers of the Revolution
Who love the People
Whose bright future is very real

Forward, young sisters and young brothers
Our tasks are great
We must build a new society
We cannot hesitate

United in our Young Bolshevik League
With our Bolshevik Party always in the lead
We struggle true to the end
Our Young Bolshevik League
Is the faithful supporter of the Party
And to the masses a dear friend

It supports the Party, its line and program
It is the sworn enemy of all who are sham
Revisionists and opportunists it resolutely opposes
Staunchly it defends Marxism-Leninism
And falsehood it exposes

It must serve the People
Struggling without doubt
Learn Communism - learn it well
And implement it throughout

Forward, young sisters and young brothers
The masses have suffered too long
We must smash the bourgeois state
Establish the Dictatorship of the Proletariat
And establish it strong

We must construct Socialism
In the interests of the masses
And move on to our final aim
the abolition of classes

Life under capitalism throughout the world
Is unbearable for our sisters and our brothers
It is a wretched life of exploitation and oppression
For our fathers and our mothers
The bourgeoisie recruits us for their imperialist wars
But we will turn those guns around
Of this, they can be sure

Unemployment lines, police harassment and abuse
Makes the youth feel that there is no use
Drugs, alcohol, pornography, gambling
Bourgeois youth culture says "Do Your Own Thing"

Trying to corrupt their spirit, bodies and minds
But a power which cannot be stopped
In the youth - the forces of reaction find

Forward, young sisters and young brothers
We have chosen our course
The youth are a strong
A strong and vital force

The wise eye of our Party
Teaches them and watches them grow
The open heart of our Party
Welcomes their spirit, their openness
And loves and cherishes them also
The strong arm of our Party
Guides them with firmness and discipline
And keeps them on a steady course
For the youth are a strong

A strong and vital force

**Our Party guides the Young Bolshevik League
Training the worthy successors
Which our Revolution needs**

**Educating and persuading
Our Party trains them well
Fighting always in the interest of the working class
And giving the bourgeoisie hell!**

PROLETARIAN REVOLUTION ON THE ORDER OF THE DAY

Our Party
being born
in the heat
of class struggle
there's no doubt at
all
There'll be a better
tomorrow
through the twist and turns
it travels like a giant
vessel
In a stormy ocean
Of class warfare
it goes against the tide
it is invincible
founded on
Marxism-Leninism
Our Compass
the ever illuminating guide
Leading the masses
to final victory
tempering, steeling

solidifying the ranks
of struggle
Sons and daughters of the Proletariat
self-sacrificing, hard working
bold and upright
it is in your hands
that our Party's life
is held tight

attacked by the enemy
a good thing
we know
it means it's very clear
our struggle cannot be bought
will not be sold
our conviction
is steeled and firm
like a Rock
We are moving ahead
clearing the path
Glorious and never
capitulating shall
remain
Proletarian Revolution it is
on the order of the day

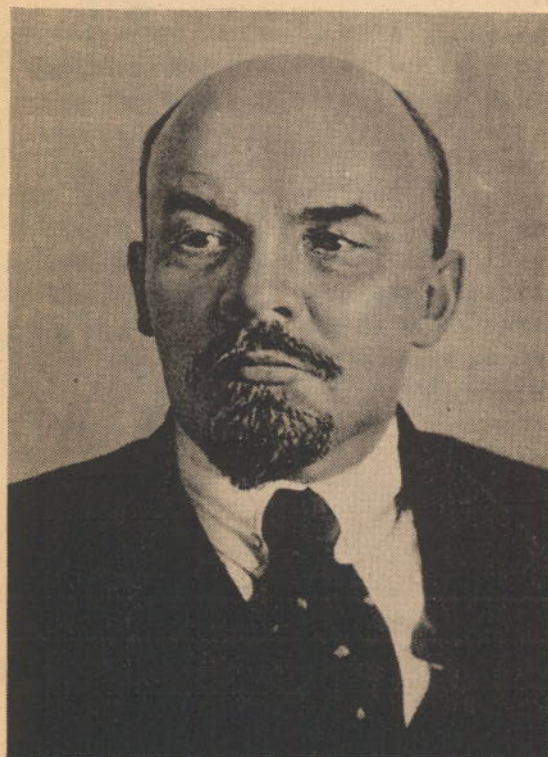

Soldiers of Lenin and Stalin
we shall always remain
it is as powerful as
the blood that
runs through our veins

The mightiest of weapons
in the party we find
being born historically - We are happy and gay
in spite of all who try to destroy it
get out of the way!
reaction can't understand it
There's no holding back
what history has entrusted

To love the Party and
faith in it have to the
end

The masses propell us forward
they give us courage, endurance
they produce the brave
Sons and daughters of the
working class
Strength, determination
United and steeled
Our Party in keeping
with the forward
with history's wheels
at last
at last
leading the masses
this is truth!
this is real!

We Stand together, arms locked
tight
We love our Party, the masses
we serve
the future is bright!

WORKERS AND OPPRESSED PEOPLE OF THE WORLD, UNITE!

**NOTHING TO LOSE...
A WORLD TO GAIN!**

**¡NADA DE PERDER...
UN MUNDO PARA
GANAR!**

¡OBREROS Y PUEBLOS OPRIMIDOS DEL MUNDO, UNAMONOS!
